A. REGISTRATION

- Download our UPI App - 'Empower'  from 'Play Store' 
- Install and open the Application, then follow as provided under.

STEP: 1

REGISTRATION > tap on 'Register'

The application will automatically send an SMS from the SIM chosen to form the device hard binding.

STEP :2

The screenshot shows a mobile app interface with a blue header and a white registration form. The header contains the text "REGISTER Personal Information" and an illustration of a person with a clipboard. The form fields are: Name (Divya), Nickname (div), Email address (d.divya.jo@gmail.com), and Virtual Address (div @cnrb). A yellow "CONTINUE" button is at the bottom. At the very bottom, a blue banner reads "Canara Bank welcomes you to the new phase of transaction with your number".

PERSONAL INFORMATION:

The User has to enter personal details as given on the screen:

Name:

Nick name :

Email address :

Virtual address :

Then Tap on **continue**.

About VPA:

- **Virtual Payment Address** - Is a user defined identifier which basically holds the account credentials i.e., Account number+ IFSC thereby securing the credentials from being exposed.

(Creation of a virtual address is as simple as creating an email id.)

- To Transfer funds or Collect money, you may share your VPA.

- VPA is unique. There is no criteria for creating a VPA. If a VPA is already used, you need to create a different one.

STEP:3

SECURITY QUESTION:

User needs to select 2 security questions among the ones given in drop down menu and answer the same.

(These security questions are used at the time of password reset)

Tap on **continue**.

Please remember the security answers for future reference.

STEP :4

SET YOUR PASSWORD

User needs to set up the App login password to access the UPI Application. Once the password is set, click on CONTINUE.

This is the criteria for setting up the Login password.

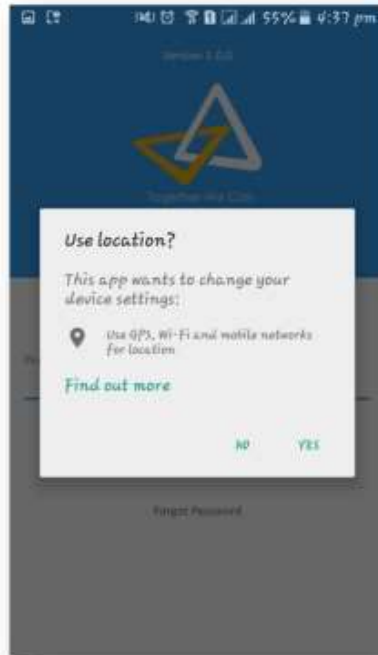

HELP can be obtained by clicking on '?'

Before continuing, customers need to check 'Privacy policy and Terms and conditions'.

PASSWORD EXAMPLE: Can@012

- Password should be alphanumeric with a SPECIAL CHARACTER. Alphabets must have at least one UPPER CASE and one LOWER CASE letter
- Length of the Login password must be at least 6 characters

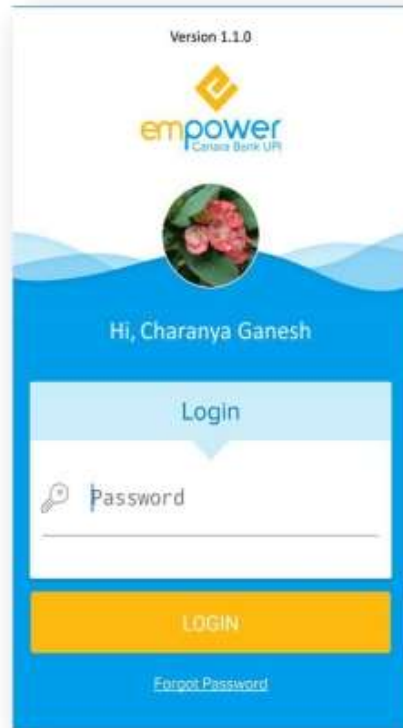

STEP :5

ENABLE GPS

- User will be instructed to enable the location. This is optional to the user.

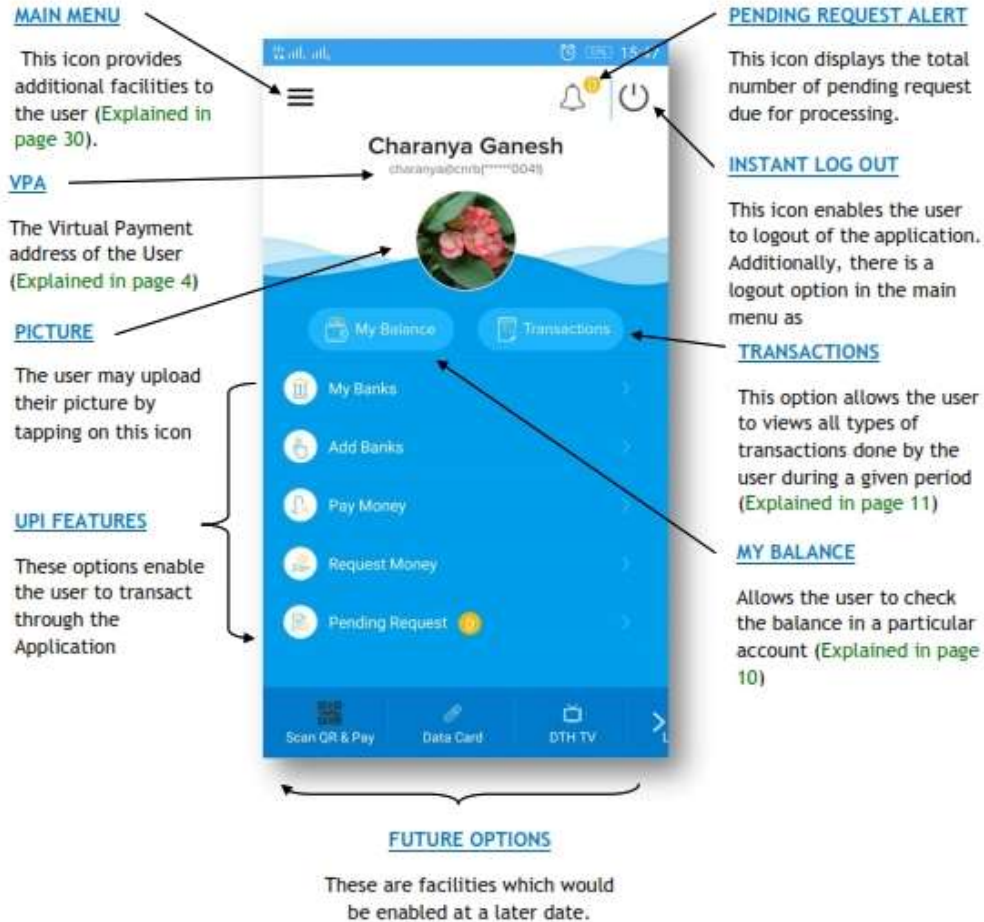

STEP: 6

LOGIN PAGE

- Enter the created Login Password and Tap on 'LOGIN'
- If you have forgotten your Password, reset it by tapping on 'Forgot password ' link given below.
- It will ask you to select the SIM (in case of dual sim phone). Select the one for which you have registered.
- You will be directed to the page where it asks for the 2 Security questions which you have set at the time of Registration.

B. 'EMPOWER' DASH BOARD

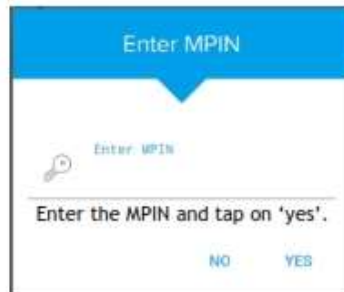

C. APPLICATION USAGE

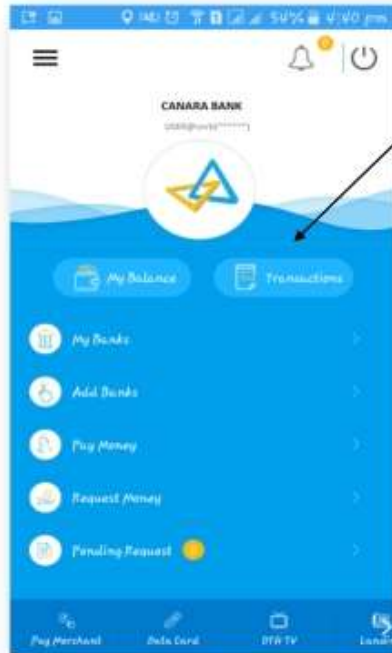

MY BALANCE

- This option enables the user to check balance in their accounts.
- Tap on 'My Balance'
- Select the VPA and the Account
- Tap on 'Balance Enquiry'

The balance will be displayed

TRANSACTIONS

This option enables to view all types of transaction (Debit, Credit and others) done by the user.

Step :1

- Tap on 'Transactions'
- Choose the period for which the transactions shall be displayed

Step: 2

- In case it is for a specific period,
- Choose from and to date and tap on 'Submit'
- The following screen displays with three categories.

Tap the desired category to check transactions

This tab displays all the credit transactions done during the defined period.

This tab displays all the Debit transactions done during the defined period.

This tab displays all Other transactions such as balance enquiry, Virtual Payment address creation etc done during the defined period.

MY BANKS

- This option enlists the list of Virtual Payment addresses created by the user.
- The same option allows the user to delete a VPA.

Note: If a VPA is deleted by a user, the same VPA cannot be created for the next 2 years.

Virtual Payment Address
Baala@cnrb

On tapping on the VPA, the accounts linked to it would be displayed.

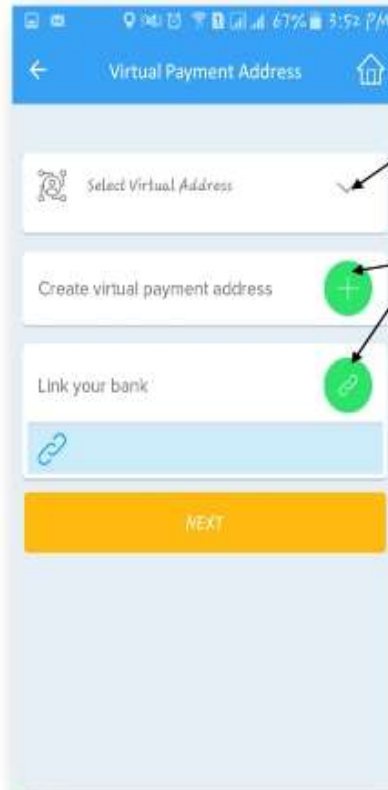

STEP : 1

ADD BANK

- This option enables the user to add their Bank accounts to the VPA created by choosing the Bank from the list provided.
- The same option allows the user to create a new VPA (as shown next).

STEP : 2

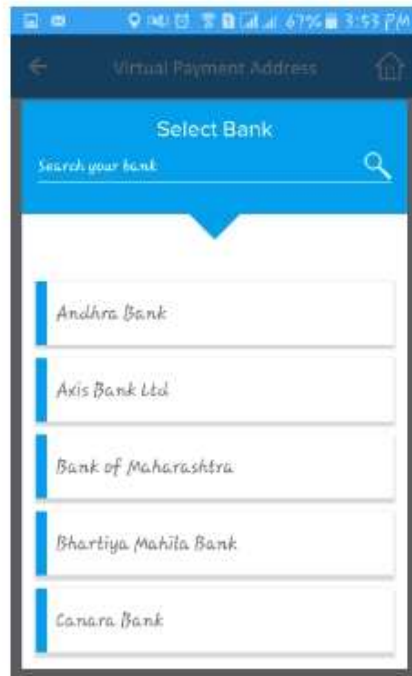

VIRTUAL PAYMENT ADDRESS

Select the VPA:

- Select the existing VPA created during registration
- Tap on 'Link your Bank' to link accounts to the VPA created.
- User may also Create a new VPA.

(Please refer [Page 4](#) to know about [Virtual Payment Address](#))

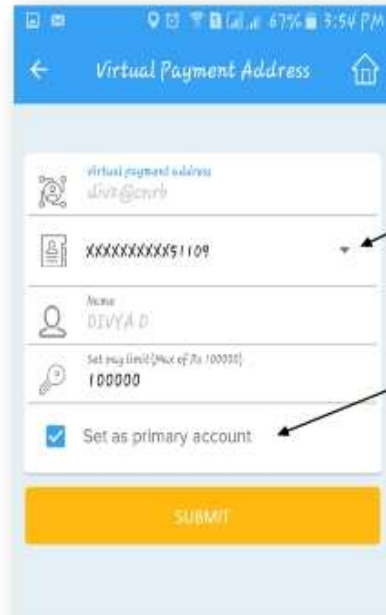

STEP : 3

SELECT BANK

- After selecting VPA, a list of Banks active on UPI is displayed.
- Select the Bank you wish to link to your VPA BY TAPPING IT.
- You may also use the Search Facility to search for your Bank.

STEP : 4

LINK ACCOUNTS

- List of accounts linked to your Mobile Number is fetched from the Bank selected on the previous step and is displayed.
- Tapping on the drop-down menu shows the list of Accounts.
- Select the Account.
- Set the Limit of the VPA.
- Set as Primary: YES/NO and Submit.
- VPA is successfully added.

Note: In case the user is not registered for Mobile Banking, he/she will have to generate MPIN after tapping on Submit.

On successfully adding of accounts under a Bank, a message is displayed as under:

'Bank Added Successfully'.

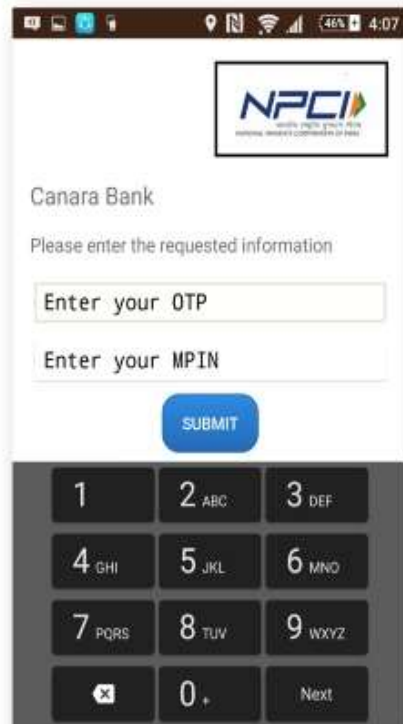

STEP : 5 : In Case No MPIN is set for the account/or in case of change of MPIN
