

ni-msme - the premier institute

ni-msme, the pioneer institute in the field of MSME is playing a major role in providing pro-business environment to foster the progress of MSME towards success and prosperity. The raison d'être of this Institute is to assist the Government in formulating policies for micro, small and medium enterprises and to help the practising and potential entrepreneurs through a host of services like training, research, consultancy, information, education and extension. The Institute is a training ground for senior technocrats, bureaucrats and bankers who come here to gain expertise and knowledge in order to equip themselves with the latest practices and streamline their operations.

Set up in 1960, **ni-msme** has made valuable contributions by creating an impressive record of achievements beyond the Indian shores, enabling other developing countries to get the benefit of the Institute's facilities and expertise. **ni-msme**'s activities are changing from time to time to meet the needs of enterprises in the context of globalisation.

Located in a sprawling and enthralling campus amidst a rich natural setting, **ni-msme** is well equipped with both physical and academic infrastructure. In keeping with the changing times and technological changes, the Institute has updated its style of functioning by focusing on the use of IT in every aspect of its activities, but at the same time retaining the wisdom and advantages of deeply ingrained traditional practices.

The Institute stores and supplies information that helps make a successful entrepreneur who is well versed in the intricacies of business and can participate in business activities intelligently and diligently through its SENDOC.

ni-msme has made many significant contributions towards enterprise promotion both nationally and internationally. Some of **ni-msme**'s recent outstanding contributions include Orientation workshop for Industry Members of IMCs, under the scheme "Upgradation of 1396 Government ITIs through PPP", sponsored by the DGE&T, Ministry of Labour & Employment, Govt. of India (2014), Mid Career Programme on MSME Promotion, sponsored by Directorate of Industries & Commerce, Govt. of Kerala (2014), Product Identification and Preparation of Low Investment Project Profiles, sponsored by the Directorate of Micro & Small Scale Enterprises, Govt. of West Bengal (2014), Entrepreneurship Development Programmes in Food Processing, sponsored by AP Food Processing Society (APFPS), Govt. of Andhra Pradesh (2014), Executive Development Programme, sponsored by National Thermal Power Corporation (NTPC) Ltd, Govt. of India (2014), Outreach and Skill Development Programme in Food Processing, Sponsored by NIFTEM, Ministry of Food Processing, Government of India (2014), Marketing and Branding of Clusters for KVIC Officers, Sponsored by KVIC, Govt. of India (2014), Workshops, Sponsored by DSIR, Ministry of Science & Technology, Govt. of India (2014), IPR Challenges & Prospects, Sponsored by DC (MSME), Ministry of MSME, Govt. of India (2015) and Basic Orientation Programme on Management, Monitoring & Implementation of MSE-CDP, Sponsored by the Directorate of Micro, Small and Medium Enterprises, Govt. of West Bengal (2015). **Professional Development Programme on
Current Requirements in Environmental Impact Assessment (EIA) -
Process & Procedures (As per MoEF Guidelines)
(26 - 28 July, 2017)**

INTRODUCTION

Development through use of technologies is required to improve the standard of living. In view of the fact that development projects are interfering with the environment, it is essential, before starting a major project, to assess the present environment scenario and, at the same time, it is necessary to assess impact of the same project on the environment during its operation.

Environmental concerns have to be addressed rationally before any project is grounded. The Environmental Impact Assessment (EIA) is an effort to anticipate measure and weigh the socioeconomic and biophysical changes that may result from a proposed project. EIA is a formal study process used to predict environmental risk and assist decision-makers in considering the proposed project's environmental costs and benefits. When the benefits sufficiently exceed the costs, the project can be viewed as environmentally justified. Based on EIA, the regulatory measures can be identified and the roles of concerned agencies defined for achieving more efficient environmental management.

The objectives of EIA include prediction of environmental impact of projects, finding ways and means to reduce adverse impacts, shaping the project to suit local environment and presenting the predictions and options to the decision-makers. MoEF, Govt. of India, has made it mandatory to conduct EIA for all developmental projects.

With the above issues in focus, National Institute of Micro Small and Medium Enterprise (**ni-msme**) is organizing a three day Professional Development Programme on "Current requirements in Environmental Impact Assessment (EIA) - Process & Procedures as per MoEF Guidelines" is scheduled on 26 to 28 July 2017.
