Training Programme on Enterprises Development through Self-Employment (11 – 15 March 2019)

RATIONALE

Ever since the formulation of policies and programmes started, alleviation of poverty has been one of the primary objectives in Indian economy. All our economic development programmes are aimed at promotion of sustainable self-employment ventures not only to generate employment but also to raise the living standards of the economically and socially weaker sections.

A major constraint in the effective promotion of self-employment programmes is the identification of suitable income generating activities and orientation of the youth to take up such viable self-employment activities. In this context there is an imperative need to evolve pragmatic strategies with a bias in favour of promotion of sustainable enterprises with potential for self-employment. More particularly when the National Self-Employment programmes like PMEGP are implemented; there is an imminent need to orient the promotional and financial institutions about the intricate issues in the promotion of self-employment.

Therefore, to promote micro-and small enterprises a systematic training intervention, up gradation of skill and market sensitization need to be promoted. In order to achieve this, a concerted and holistic approach is to be evolved. In this above developmental scenario in the country it is considered important to undertake orientation programme on promotion of self-employment targeting the field level organizers who are required to be imparted conceptual clarity.

In this context, a one week training programme covering the above issues is scheduled to be organized by **ni-msme**, during 11 -15 March 2019.
