

ni-msme – the premier Institute

ni-msme, the pioneer institute in the field of MSME is playing a major role in providing pro-business environment to foster the progress of MSME towards success and prosperity. The raison detre of this Institute is to assist the Government in formulating policies for micro, small and medium enterprises and to help the practicing and potential entrepreneurs through a host of services like training, research, consultancy, information, education and extension.

Set up in 1962, ni-msme has made valuable contributions by creating an impressive record of achievements beyond the Indian shores, enabling other developing countries to get the benefit of the Institute's facilities and expertise

Located in a sprawling and enthralling campus amidst a rich natural setting, ni-msme is well equipped with both physical and academic infrastructure. In keeping with the changing times and technological changes, the Institute has updated its style of functioning by focusing on the use of IT in every aspect of its activities, but at the same time retaining the wisdom and advantages of deeply ingrained traditional practices.

The core activities are being implemented through Centres like Centre for Industrial Planning and Development (C-IPD), Centre for Policy Research (C-PR), National Resource Centre for Cluster Development (NRCD), Centre for Promotion of Advanced Management Practices (C-PAMP), Centre for Industrial Credit and Financial Services (C- ICFS), Centre for Logistics and Integrated Materials Systems (C-LAIMS), Centre for Environment Concerns (C- ECO), Intellectual Property Facilitation Centre for MSMEs (IPFC), Centre for Entrepreneurship and Industrial Extension (C-EIE), Centre for Consultancy and Counselling (C-CC), Centre for Communication and Information Technology (C-CIT), Small Enterprises National Documentation Centre (SENDOC) as well as cells like Economic Investigation and Statistical Cell (EISC), ni-msme NGO Network (N-Cube), Women Studies Cell (WSC), Employee Assistance Cell (EAC), Live Projects Cell (LPC), Resource Centre for Traditional Paintings (RCTP), Goods & Services Tax (GST) Cell and Livelihood Business Incubator (LBI).

The Institute stores and supplies information that helps make a successful entrepreneur who is well versed in the intricacies of business and can participate in business activities intelligently and diligently through its Small Enterprises National Documentation Centre (SENDOC) and knowledge portal www.msmeinfo.in. Livelihood Business Incubator (LBI) established in 2016 under the Scheme of ASPIRE of Ministry of MSME, Govt. of India for creating a favorable ecosystem for entrepreneurial development in the country.

The Institute has trained more than 5,32,000 participants by organising around 15,800 programmes which includes prospective/existing entrepreneurs and officials from various Ministries of Govt. of India and State Governments till March 2019. The Institute is implementing ITEC Scheme of Ministry of External Affairs, Govt. of India since 1967 and trained more than 10,000 International Executives from 142 developing countries till March 2019. The Institute has also undertaken more than 940 research and consultancy projects.

The management of the Institute rests with the Governing Council appointed by the Government of India. The governing body acts through the resident Director. The present Director is **Mr. D. Chandra Sekhar**

Two day Workshop On

AIR POLLUTION CONTROL TECHNOLOGIES FOR MSMEs

24 & 25 October 2019

Programme Director

Mr. J. Koteswara Rao

National Institute for Micro, Small and Medium Enterprises
(An Organisation of the Ministry of MSME, Govt. of India ISO 9001-2008 Certified)

INTRODUCTION

Deterioration in air quality due to pollution is a pertinent global problem. Reducing industrial emissions so as to minimize its environmental & health effects is a major concern in developing economy like India. Many Industries in India are inadequately equipped with Pollution Control Measures. There are a number of Air Pollution Control and Monitoring Technologies available in the market, but it is difficult to make decisions in choosing the most suitable technologies, especially due to absence of comparative assessments, expert's opinions and lack of knowledge on efficient latest technologies. Many large polluting industries have some Pollution Control Plants installed already but could not be used properly either for deficiency in equipment design or deficiency in the system design or both. The System Design plays the most important role in the performance of the Air Pollution Control Plants. Wrongly designed systems never improve the environmental conditions, even if we use highly efficient collecting equipment. Therefore, Improvisation and innovative ideas for air pollution prevention control & monitoring are the requirements of the day. With proper know-how it is possible to improve the performance of the existing plants through minor modifications of equipment or the systems or both.

OBJECTIVES

To highlight and share the latest technologies available for Air Pollution Control and Monitoring.

- To address various issues & problems related to Operation and Maintenance of Air Pollution Control & Monitoring Equipments
- To provide extensive knowledge to participants for selection of APCDs and optimizing the use of air pollution control systems to ensure maximum efficiency and productivity
- To learn basics of various types of APCD Designs, to enable assess the suppliers offers
- Cost effective control of fugitive emissions.

Industry experts and Environmental Consultancy agencies etc. would be sharing their knowledge and experience to the participants apart from ni-msme internal faculty.

WHO SHOULD ATTEND ?

Professionals dealing in Air Pollution Control from Industries, Air Pollution Control Consultancies, Air Pollution Control Technology Suppliers, Continuous Emission Monitoring System (CEMS) Suppliers and Manufacturers, Central and State Pollution Control Boards, Government Ministries/Organization, Research Scholars, Students, and Commercial Buildings, Infrastructural Projects, R&D and Academic Institutions and Large/Medium/SSI like:

- Cement Chemical Plants
- Thermal Power Plants Oil Refineries
- Petrochemical Plants Pharmaceutical
- Aluminum Plants Foundries
- Iron & Steel Dye Industry
- Sulphuric Acid Plant Smelting Units
- Rayon Industry Fertilizer
- Pulp & Paper Pesticides Industry
- Rice Mills Metallurgy
- Mining Textiles
- Sugar Stone Crusher Plant. etc.

OUT COME OF THE WORKSHOP

The workshop is aimed to create awareness among the Public and responsible Stakeholders for

- Better coordination amongst the all response and regulatory agencies.
- More development of industrial community participation.
- Better understanding of process and procedures to the industrial sector in the task of Air Pollution control and prevention.
- Better practices of APCD,s among various industrial Communities.
- Better use Advanced Equipment Pollution control Devices.

COURSE FEE

- Fee: Rs. 3,000/- (Residential fee) / Rs. 2, 000/- (Non-Residential fee) fee per participant. (In addition 18% GST is applicable) Fee includes course material, course kit, twin-sharing accommodation as per availability, breakfast, lunch, dinner, tea / coffee and snacks during the actual days of training programme.
- To register manually, please send your nominations giving details of name, designation, contact address, email address, mobile numbers, telephone and fax number of the participant along with the details of payment of fee, Cheque /D.D, Drawn in favour of Director (Admin & logistics), ni-msme payable in Hyderabad

PROGRAMME VENUE, DATES & TIMINGS

- Nominations may be sent well in advance so as to reach the Institute latest by 13th Sep 2019.
- Confirmed participants are requested to reach ni-msme one day in advance i.e. 24thSep2019.
- Participants are requested to keep themselves free from all official and personal commitment during the programme.

COURSE DURATION

Two Days 24 –25 Oct 2019

CERTIFICATE

A certificate of participation will be awarded to each participant on conclusion of the programme.

WORKSHOP COVERAGE

Widely used standardized best topics highlighting the Air Pollution Control Technology in India to achieve Greater Participation of all individuals and to Provide a common Platform for Greater Interaction and Exchange of Ideas will be followed.

Enquiries and nominations may be addressed to:
